

Aquamatic II

The Aquamatic is our classic dive master's timepiece, with a 25 jewel, 2824-2 calibre, Swiss-made automatic movement. The new men's version has a solid 316L steel case, rated to 300M/1000FT, with a stunning display-back. No detail has been missed, from the top rated screw-crown, to the heavy matching bracelet, unidirectional bezel and date magnifier. Produced in limited productions in a small factory in Switzerland, this is truly a watch to last a lifetime.
